

## **RULES FOR SUNSCREENS**

Formally adopted by the Board of Directors on 8.6.25

- An ARC form must be submitted for Board approval – SPF and Progressive Screens are preferred installers.
- The housing must be entirely concealed behind the header, with no portion visible to other owners.
- The housing may not be attached to the ceiling, only to the header, with stainless steel hardware.
- The screen color must be BLACK.
- All exposed metal hardware is to be white.
- Maintenance and repairs to the screen is the responsibility of the owner.
- Electrical conduits to be painted to match the surface it is mounted on.
- Sunscreens are NOT restricted to evening use only.
